- Extended Distance Down (Down from a distance)
- Come to Heel (come around your right leg and sit in the Heel position at your left leg)
- Watch (maintain eye contact with you until released)

- Through (come around your right leg and sit between your legs)
- Stand (assume a standing position)
- Front (come and sit directly in front of you, facing you)
- Touch (stand up against something you point to)

Basic & Advanced Obedience Package

Purchase all 4 of the Basic lessons and 4 of the Advanced lessons above for one low price.

Be prepared to practice daily for at least 30 minutes and schedule lessons 1 week apart.

2 Week Board & Train Program

The 2-Week Board & Train Program takes the leg-work out of the training for you. Drop your dog off for 2 weeks at "camp" so he/she can learn the 4 Basic lessons and at least 4 of the Advanced lessons. By the time you come back to pick your dog up, he/she will be flawless with all of these commands, off-leash, with distractions!

Therapy Dog Development Course

Our Therapy Dog Development course is for 8 private lessons, the e-collar and a 15ft leash. This course prepares you and your dog to meet the requirements of therapy dog testing and certification, through basic obedience and scenario-based practice.

Nosework (Scent Detection) Training Packages

Nosework (Scent Detection) Training Packages: Any dog regardless of age, breed, size or temperament can enjoy and benefit from this activity. Nose work is great for building confidence in a shy dog, giving an active dog an appropriate and challenging outlet for its energy or helping a reactive dog overcome its environmental sensitivity. Typically, 5 lessons will provide your pup with a good baseline for Nosework. Our Nosework Proficient package includes 10 lessons.

**Some dogs may rapidly excel at nose work and do even more advanced searches in the sessions and some dogs may need more sessions to complete the curriculum. Nose Work is all positive and training is conducted at your dog's learning pace for optimum results and to ensure the dog is conducting thorough and accurate searches.*
